

PRINCE GEORGE'S COMMUNITY COLLEGE

TECHNICAL PHYSICS FOR ENGINEERING TECHNOLOGY

PHY 1570	Instructor:	Dr. D. Simpson
Section LE01 (99118)	Office:	310-I Chesapeake Hall
Spring 2024	Office Hours:	Mon 5:30-6:00 pm
Lec. MW 6:00-7:15 pm CH-305		Wed 5:30-6:00 pm
Rec. M 7:30-8:20 pm CH-305	Telephone:	(301) 322-0990 ext. 4768
Lab W 7:30-9:15 pm CH-305	Email:	DSimpson@pgcc.edu

Course Web site: <http://www.pgccphy.net/1570>

Recommended textbook: Applied Physics (11th ed.) by Ewen, Schurter, and Gundersen. Pearson Pub., 2017. (ISBN 978-0-13-415938-6)

Recommended Reference:

The Feynman Lectures on Physics (3 vol.), R.P. Feynman, R.B. Leighton, and M.L. Sands. Addison-Wesley, 1963.

Course Description:

In this algebra-based overview of topics in technical physics, students explore a variety of concepts and principles, ranging from sound, optics, and remote sensing to force, gravitation and energy as well as basic mechanics. Students apply the principles of these various topics to solve problems, both theoretical and in a lab setting. Lab emphasis is on interpreting the experimental data, examining discrepancies between predicted and observed results and providing explanations for these discrepancies, including error analysis. Lastly, students discuss the role of ethics in the use of technology in physics.

Tentative Schedule

Week	Dates	Topics	Chapter (ESG)
1	M 1/22 W 1/24	Arithmetic Arithmetic	App. A
2	M 1/29 W 1/31	Arithmetic Number Theory	App. A
3	M 2/5 W 2/7	Algebra Algebra	1
4	M 2/12 W 2/14	Algebra Algebra	4
5	M 2/19 W 2/21	- Washington's Birthday - Geometry	5
6	M 2/26 W 2/28	Geometry Trigonometry	5
7	M 3/4 W 3/6	Trigonometry; practice exam 1 Exam #1	6
8	M 3/11 W 3/13	- Spring Break - - Spring Break -	
9	M 3/18 W 3/20	Trigonometry; analytic geometry Analytic Geometry	8
10	M 3/25 W 3/27	Probability Statistics	9
11	M 4/1 W 4/3	Units	11
12	M 4/8 W 4/10	Force Momentum	12
13	M 4/15 W 4/17	Wave Motion and Sound Light	16 20,21
14	M 4/22 W 4/24	Exam #2 Light	

15	M 4/29 W 5/1	Remote Sensing	--
16	M 5/6 W 5/8	Professional Ethics; Review No class (finals week)	19
17	M 5/13	Final exam (6:00-8:20 pm)	

#### In-Class Exercises:

Please bring paper, pencils, and a calculator to each class for class exercises. These exercises will not be graded, but are for practice.

#### Homework:

Weekly problem assignments will usually be given on Mondays and will be due the following Monday at the beginning of class. No late homework will be accepted. The lowest homework score will be dropped in computing your homework grade.

#### Laboratory:

Each Wednesday we will have a laboratory section that will consist of a lecture and/or laboratory work. The material will be focused on learning remote sensing and how it is accomplished with modern spacecraft. Attendance at laboratory sessions is mandatory; you will not receive credit for laboratory sessions you did not attend.

#### Exams:

Two exams will be given during the semester and will be scheduled at least one week in advance. If you must be absent from an exam, consult with your instructor BEFORE the exam is given. There will be no need to memorize formulae for an exam; all the important formulae will appear on a formula page passed out with the exam. You may bring the calculator of your choice to the exams, but you may NOT use your cell phone or cell phone apps during the exams.

Changes to Syllabus:

The instructor reserves the right to make changes to the syllabus at any time, as circumstances may require.

Final Exam:

In addition to these two exams, there will be a comprehensive final exam on May 13, 2024 from 6:00 to 8:20 pm.

Grading:

Your final grade will be based on your scores on homework, lab work, the two exams, and the final exam, as follows:

Homework	20%
Laboratory work	15%
2 exams @ 20% each	40%
Final exam	25%

Grading will be determined by a class average. The following scores will be sufficient to earn the following grades:

A	90%
B	80%
C	70%
D	60%

Classroom Policies:

Academic honesty and integrity will be expected of you at all times -- for this course or any other. I will deal with infractions quite severely.

Photocopied assignments will not be accepted.

Please turn off all cell phones during the class lectures.

Disability Support Services:

Students requesting academic accommodations are required to contact the Disability Support Services Office (M-1042) or call (301) 322-0838 (voice) or (301) 322-0122 (TTY) to establish eligibility for services and accommodations. Students with documented disabilities should discuss the matter privately with their instructors at the beginning of the semester and provide a copy of their Student/Faculty Accommodation Form.

Code of Conduct:

The Prince George's Community College Code of Conduct defines the rights and responsibilities of students and establishes a system of procedures for dealing with students charged with violations of the code and other rules and regulations of the college. A student enrolling in the college assumes an obligation to conduct himself/herself in a manner compatible with the college's function as an educational institution. Refer to the 2023-24 Student Handbook, beginning on page 64, for a complete explanation of the Code of Conduct, including the Code of Academic Integrity and the procedure for dealing with disruptive student behavior.

Code of Academic Integrity:

The college is an institution of higher learning that holds academic integrity as its highest principle. In the pursuit of knowledge, the college community expects that all students, faculty, and staff will share responsibility for adhering to the values of honesty and unquestionable integrity. To support a community committed to academic achievement and scholarship, the Code of Academic Integrity advances the principle of honest representation in the work that is produced by students seeking to engage fully in the learning process. The complete text of the Code of Academic Integrity is in the 2023-24 Student Handbook (pages 81) and posted on the college's website.
